About Keymed surgical

Keymed surgical was founded in 2018 with two entrepreneurs with years of experience in both nursing profession and medical supply industry. Motivated by the growing need for a single source supplier that would provide excellent customer service. The partners began building and extensive product line based on market needs. The goal was to serve the varied needs of hospital, surgical ambulatory, and outpatient centers as completely and as quickly as possible. With over 3000 of the highest quality products available to customers Keymed surgical is poised to continue to be a compassionate industry leader for years to come.

OUR MISSION

Our mission at KeyMed Surgical is three-fold. First, to hire and retain good people who understand that nothing happens until a customer decides to buy something from us. Second, to grow by providing the quality products, value and service that our customers want, when they want them. And finally, to be good citizens by providing a rewarding and fun place for employees to work and sharing the benefits of our growth with the community in which we operate.

A NOTE ABOUT QUALITY

There are no shades of gray in the medical marketplace when it comes to quality. KeyMed Surgical is committed to manufacturing and distributing the highest quality medical products, and to maintaining the highest level of compliance to FDA and ISO regulations. Nobody can claim to be perfect, but we strive to continuously improve our processes and systems so that we will always be closer to perfect tomorrow than we are today.

OUR VALUED CLIENTS

KEYMED SURGICAL IDENTIFICATION TAPE

KEYMED SURGICAL IDENTIFICATION TAPE

Our Identification Tape is designed to help you organize and identify instruments as they move between sterile processing and various departments. Our tape will help save you time, effort and money by offering effective organization and identification of your surgical instrumentation. It is easy to apply and withstands repeated sterilization cycles. And as always, our tape is not made with natural rubber latex. We have the broadest selection of tape available and it is colorful, easy to use and economical.

Roll Tape is available in nine bright colors and three widths, while our Sheet Tape is available in over 250 colors and patterns to meet all your identification needs. We are happy to help you customize your own identification tape as well!

Adhesive Remover is an instrument-friendly solution that makes it easy to remove identification tape. It is environmentally safe and California Air Resource Board (CARB) compliant, with no hazardous solvents or toxic fumes. It dissolves adhesive residue quickly and easily and restores instrument surfaces to their original condition.

KEYMED SURGICAL INSTRUMENT PROTECTION

Instrument Tip Caps are designed to extend the life of your instruments. Our tip caps protect your valuable instruments from unnecessary wear or damage, helping reduce repair costs while giving you the peace of mind that your instrument investment is being protected. In addition to protecting and extending the life of your valuable instruments, tip caps also help to protect sterilization packs from puncture and protect employees from sharp instruments.

Available in a variety of shapes and sizes to fit all your instrument protection needs, we have the perfect tip cap for each of your various instruments – from skin hooks to scissors to osteotomes – and they are available with or without vents, depending on your preference.

Our tip caps are radiopaque, single use, and compatible with steam sterilization.

Instrument Sleeves are designed to protect various delicate instruments using an easy-to-fold design. Sleeves are single use, and compatible with steam and gas plasma sterilization.

Duraholder® Instrument Protection System (IPS) is available in several configurations to fit your instrument protection needs within a closed container or set. Duraholders help you organize and prepare your various instruments for steam sterilization in one convenient pouch.

C

Infection Prevention – Endoscope Sponges and Endoscope Tip Protector

ENDOSCOPE SPONGES

Designed to help remove gross soil from an endoscope during the point-of-use cleaning and cleaning process. It consists of dual enzymatic detergent (contains two proteolytic enzymes in a powerful solution). Endo Scrub Sponge is a dry sponge. Both sponges have a contour shape that helps the sponge wrap around the endoscope for effective 360° cleaning. Single use.

	Number	Details	Quantity
A	ES-88	KeyMed Surgical enzymatic sponges for cleaning	100/case (4 boxes of 25)
B	ES-50	Endo Scrub Sponge, dry sponge	50/pkg

ENDOSCOPE TIP PROTECTOR

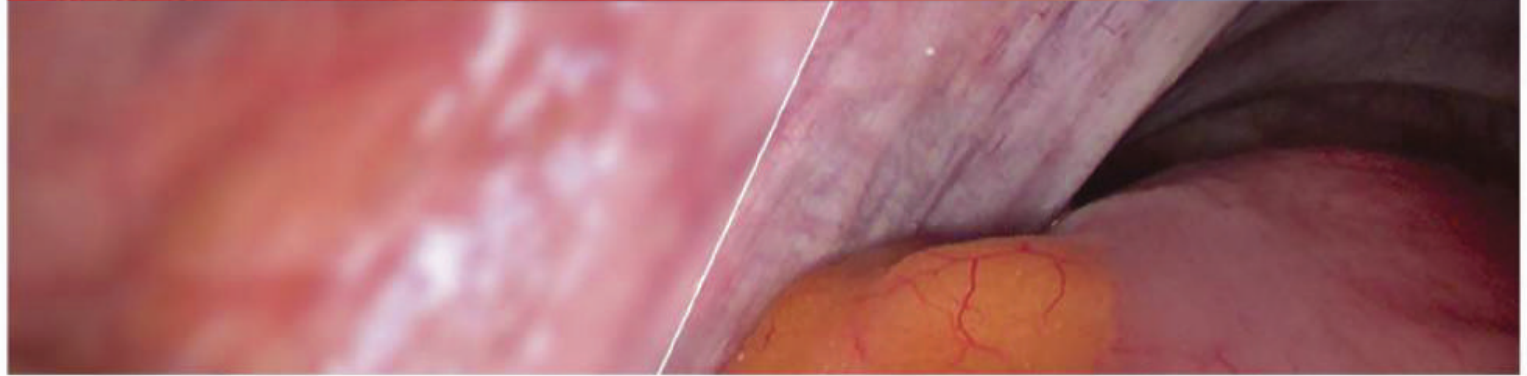

Designed to protect an endoscope during transport and storage. May also be used for removing gross soil during point-of-use cleaning. If used in this manner, use a new tip protector before transporting the endoscope. Fits all flexible endoscopes. Single use.

	Number	Details	Length	Diameter	Quantity
C	EN10111	white, foam	5"	2"	50/pkg

RAPID AND EFFECTIVE ANTI-FOG SOLUTION

Anti-Fog Solutions

Conveniently single packaged anti-fog solution is available in the following three configurations:

Product Feature:

- 6ml bottle with foam pad application, bottle with built in applicator tip, and a presoaked wipe.
